Meet your legal requirements

The final phase of the Disability Discrimination Act comes into force on **October 1st 2004**. Provide assistance for people with impaired hearing by fitting a Contacta InfoLoop™.

Contacta is the UK's leading developer of innovative, high-performance systems for service providers with direct public interface. Our products and systems enable organisations to:

- Communicate effectively with hearing aid users
- Talk clearly and discreetly with clients, customers or visitors, particularly where security screens are needed
- Manage queues to maximise service efficiency
- Safely transact cash in public areas
- Comply with the relevant requirements of the Disability Discrimination Act 1995 (DDA) and Building Regulations Approved Document M (2004 Edition)

Contacta Portable InfoLoop™ with accessory options

InfoLoop™

The most advanced and versatile range of induction loop systems available. InfoLoop™ is the preferred choice of companies and organisations in every sector throughout the UK and enables hearing aid users to hear speech clearly, with little or no background noise.

Contacta offers reliable and cost effective systems for all situations:

- **Mini and Portable InfoLoop™**
For desk and counter applications
- **Maxi InfoLoop™**
Serving spaces of any size, from rooms to auditoria
- **Portable Clipboard InfoLoop™**
The "go anywhere" solution

Contacta InfoLoop™ induction loop systems convert speech into electromagnetic signals that can be heard clearly by hearing aid users when they switch their device to the 'T' or telecoil position.

Call Peat Wholesale Ltd for further details

01 6264662

SecuriCom™

A range of 2-way intercom systems enabling clear voice transmission through glass security screens. SecuriCom™ offers full 2-way hands-free speech, providing the perfect interface between organisation and general public or customer. Integrated induction loop option available.

Q-Control

Versatile audio-visual queue control system. Provides effective queue management for a variety of applications. With clear audio and visual prompts, Q-Control maximises throughput and minimises confusion or misunderstanding amongst those waiting. *May be integrated with Contacta SecuriCom™ and InfoLoop™ systems*

Security Solutions

Including pass through trays with built-in voice communication. Items are rigorously tested for ballistic and manual attack where appropriate. Designed and manufactured in-house for guaranteed quality, performance and finish, to the relevant BS standard where required.

A name you can trust

For over 30 years Contacta Limited has been working with customer-focused service providers to develop solutions that improve the ways they interact with the public.

Millions of face-to-face meetings and transactions take place every day. Each offers a unique opportunity for organisations to demonstrate that their service meets the needs and aspirations of their clients, customers and members of the public with whom they come into contact.

Contacta high-performance systems enable organisations to realise the full potential of every interaction:

- Improving levels of service
- Creating a favourable impression
- Enhancing the reputation of the organisation
- Gaining customer loyalty
- Winning incremental business

A total service

Contacta provides a total service, including design, manufacture, installation and maintenance of its products and systems.

All Contacta systems are backed by full technical literature and project support.
